Due NO LATER THAN April 30, 1997

Response Attachment 200-299

The problem statement and recommendation relate to requirements that are only needed by the Complex Control Set (CCS). CCS is not considered a separate RTPS set, at this time, and is not included as part of the SLS. When the decision is made to either replace CCS with an RTPS set and/or specialized COTS equipment, then these requirements will be included in the SLS. The RID is therefore rejected. Thank you for reviewing the SLS and submitting your RID. Even though we rejected this RID, your input is valuable and we appreciate it.
